

SPACE CAMP®

350 Dreams  
Ready to Launch

# Inspire and Launch Dreams!

Dr. Wernher Von Braun and  
Edward O. Buckbee

*"Attending Space Camp was the first time I truly felt like I could do anything."*

*John Ramsey,  
Past Chairman  
Space Camp Alumni Association*

While touring the U.S. Space & Rocket Center in 1977, Dr. Wernher Von Braun commented, "You know, we have all these camps for youngsters in this country - band camps and cheerleader camps and football camps. Why don't we have a science camp?" So they built one, and in 2017, that science camp turns 35 years old!

To celebrate 35 years of inspiring global youth to pursue their dreams, the Space Camp Alumni Association, in partnership with the U.S. Space and Rocket Center Foundation 501(c) 3, is on *a mission to raise scholarships that will send 350 kids to camp.*

Please consider giving a child the tax-deductible gift of exploring a world where anything is possible! Follow this link to see where dreams without limits can end up:
